On-Demand Tutoring

Your On-Demand Tutoring benefit gives you access to tutors and academic resources for children and adults, grades K-12, plus college, at no cost to you.

On-Demand Tutoring Sessions
Thousands of tutors available covering 150+ subjects in English, and many are available in Spanish. No personal information is solicited.

Drop Off Reviews
Essays, reports, creative writing, resumes & cover letters reviewed.

Self-Study Tools
Videos, lessons, study guides, practice tests, worksheets.

Professional Tutors
All tutors have at least an undergraduate degree or must be enrolled in an accredited higher education institution. Plus, all tutors must meet employment standards, pass subject matter tests, demonstrate instructional technique—and pass background checks (which include criminal background).

Use On-Demand Tutoring for grades K-12, plus certain college-level courses for all of the following and more:

- Math
- Science
- Social Studies
- Languages
- Writing
- Test prep
- College courses

Frequently Asked Questions

How does a tutoring session work?
Students simply indicate their grade, subject and topic area they need help with to access any of the following features:

- Connect with a tutor in a desired subject area
- Schedule a session by selecting from a listing of tutors by subject matter expertise and ratings
- Submit a paper to receive feedback from a tutor

How do I access the additional online resources?
The additional resources, including practice tests, study guides, worksheets, etc. are all accessible from the On-Demand Tutoring/Homework Connection site. Most of these resources are stored in the SkillCenter Library (a link off the main student dashboard) while practice tests are organized in their own tab off the main dashboard for easy navigation.

Are On Demand tutoring sessions recorded?
Yes, all tutoring sessions are recorded and transcribed for the students. The transcriptions and recordings can be accessed at any time by the student in the "My Sessions" section of the On-Demand Tutoring site.

How do you protect the safety of children/students online?
Several measures are in place to protect the privacy and safety of all students:

- First, no personally identifiable information is shared.
- Second, all tutoring sessions are anonymous. Tutors do not know anything about the students other than what is entered into the tutoring request form (i.e. grade, subject, topic, specific questions, etc.).
- Third, students are in control as to how they choose to interact with a tutor. They can choose to text-chat only in the interactive classroom or voice-chat via telephone or computer audio. This selection is made by the student prior to starting each tutoring session.

Can a member request a favorite tutor for future sessions?

- Yes, students have the option to tag their favorite tutors and schedule a session with them for a specific date and time.

How it Works:

1 Enroll and/or log in to your account through your company's Care.com website.

2 Select On-Demand Tutoring.

3 To access a tutor immediately, select the grade, subject, topic and then click "Connect Now" to start your online session.
